

INNOVATIVE BIOCIDES

Product information

LavaPure SB conc. Bedpan cleaner

5000 ml REF 4014L

Characteristics

- **3 in 1** combines a descaler, cleaning agent and rinse aid in one product!
- For all popular thermal bedpan washers
- Provides reliable protection against the calcification of the machine and the steam generator
- Extremely high limescale binding properties with all water hardness types
- Very good material tolerance and extremely low in foam (to protect the heating)
- Very good cleaning effect
- Stain-free and reduced drying time

Areas of application

Acidic combination product with high material tolerance for use in thermal bedpan washers. The product can be used with all water hardness types.

LavaPure SB combines the following product benefits:

Descaling:

Reliably removes hardness in steam generators or the pipes, and thereby guarantees a long life-span for the bedpan washers.

Rinsing:

The special surfactants ensure stain-free surfaces and, due to the reduced surface tension, provide a shorter drying time for the items to be washed.

Cleaning:

Stubborn stains are dissolved and the cleaning effect is significantly improved.

Instructions on use

LavaPure SB is connected to the dispenser pump according to the manufacturer's recommendations. The dosage quantity is mainly dependant on the water quality. Before changing the product, rinse the dosage system, including the suction tubes, with water. Pay attention to the acid resistance of dosage systems and steam generators. The operating instructions of the manufacturers of the cleaning and disinfecting machines are to be observed. Do not mix with other products.

Chemical-physical data

pH-value (concentrate):	< 2
pH-value (0.1%):	approx. 3
Density (20°C)	approx. 1.2

Available containers

- 5l. special canister

Dosage

Soft water (up to 7°dH): 1.0 ml/ltr:

Moderate water (7°dH - 15°dH): 1.5 ml/ltr:

Hard water (>15°dH): 2.0 ml/ltr:

Operating temperature: 30-90°C, application time: 1-5 min.

Not to be used for bedpan washers with copper or cast iron. The use of softened water improves the product characteristics while also reducing consumption.

Safety guidelines

CAUTION H 319 Causes severe eye damage.

Wear protective gloves/eye protection. IN THE EVENT OF CONTACT WITH THE SKIN: Wash with a lot of water. IN THE EVENT OF CONTACT WITH THE EYES: Rinse carefully for a long time with water. Remove any contact lenses if possible. Continue to rinse.
